

E-DATA

LEADS TO FOLLOW.

Company Profile

E-DATA™ is professional service firm dedicated to providing B2B companies with the tools needed to cultivate highly effective marketing and sales programs. We specialize in serving the Information Technology community, but can help any business grow. Our innovative combination of leading-edge technology and common-sense business practice allows companies large or small to maximize their potential by accurately identifying valuable prospects and developing competitive edge campaigns to increase efficiency and maximizes return. Our products and services include:

- Web based market intelligence databases
- Custom sales list development
- Lead generation & appointment setting services
- Database clean up & enhancement services
- E-Marketing services
- Online marketing tools

When you select **E-DATA™**, you not only choose a trusted source, but a partner who takes the time to understand your needs and tailor a solution for your budget. Our commitment to quality means we work harder and longer, maximizing your ROI and giving you the tools you need to increase your brand equity. We go further and work harder to make sure you don't have to.

Mission & Vision

E-DATA™ is dedicated to maintaining the highest possible standards of service and satisfaction. We strive to provide our clients with reliable and valuable tools that give them a competitive edge in identifying, acquiring, and retaining business relationships by continuing to develop innovative lead-generation techniques, constantly improving our database platforms and services, and developing next-generation information sharing technologies.
